THE BOARD OF TRADE

TWO RECENT MEETINGS of the local Board of Trade have fallen of that body. As a result several matters are lying in abeyance for lack of the necessary quorum with which to transact the business waiting for action.

In the past it is beyond question that this body has served this community well. It must either sink or swim. It will sink and die a natural death if not premature death, before long unless some of those who think they are not interested suddenly realize that it is as much their business as that of anyone else in town. It will swim, and keep on swimming for a long time yet, if only certain of its members would make an effort to attend.

The popular excuse is that "I am too busy" or "I was out of town." That on occasions may be a justifiable reason, but for the most part would hardly bear examination. Amongst some of those who make a practice of attending are men who are busy, but who so organize their time that they find time available between one and two o'clock (nearly) anyway to give to community work. As for being out of town, it is our observation that many of these trips commence well after two o'clock, and those that really commence before that would suffer little, if anything, by being put off until after that hour.

After a continuous existence of over fifteen years (the present body was organized in 1922 and has functioned ever since without a break) it would be a pity to succumb for lack of support. Yet that must be its fate unless more interest is taken by all and sundry, and in particular, the merchants.

There may be some who have criticisms of the Board and its workings to offer, but such is the silly attitude of voicing these by non-attendance. The proper place to make them is at a meeting of the Board of Trade.

If the Board of Trade dies, then this community may just as well say goodbye to the 1st of July Celebration, the operation of the swimming pool, and other activities which have characterized its efforts since it was organized.

CREDIT HOUSES

FIVE CREDIT HOUSES, so-called, have opened their doors for business in five different points in Northern Alberta. They will operate under a new scheme of doing business in Alberta known under an Order-in-Council published in the last issue of the Alberta Gazette.

The terms of this Order-in-Council are so vague that even several careful people have the right to complete ignorance as to how the public and the merchant are to receive protection or even to do business.

It is not surprising, therefore, that merchants in particular are taking several careful looks before they leap into the adventure. It is not possible at the moment to discuss intelligently the proposed system, for the simple reason, that like Social Credit itself, the Order-in-Council seems incapable of full, complete, and satisfactory explanation.

PEACE—A KIND

EUROPE, THESE DAYS, is the scene of strange and painful history. Four big powers, not to be noted, for the sake of peace, but to prevent war, decide to dismember a lesser power.

Germany and Italy treat the results triumphantly, exultantly and well they may. Britain and France, say what they may, must accept the verdict as a defeat even though it be for the sake of peace and to prevent war. Czechoslovakia may as agree. France breaks a treaty. Britain urges her to do so. —France thereby loses whatever benefit there may be by her accord with Russia. Russia will now stand alone which if the truth were known, is what Hitler is really aiming at.

What has happened is simply that a policy of voluntary disarmament advocated by impractical idealists has resulted in a policy of compulsory disarmament by very practical dictators. That policy at the moment has resulted in peace — of a kind. No one really believes that Hitler has no further territorial ambitions in Europe. If he has none himself, he will always be able to find other nations allied to Germany, willing to play his part with his support.

And while Hitler has committed himself so far as further territorial aggression in Europe is concerned he has not given up his ambitions with respect to the former German colonial empire. It will be interesting to note the re-assertion of the greater Powers when Herr Hitler demands that he will return to the German nation of her former overseas possessions.

THANKSGIVING DAY.

THANKSGIVING DAY, as we now know it, is probably due to the precedent set by the Pilgrims at Plymouth after the occasion of their first harvest in the new land in 1621. This precedent was followed by the Massachusetts Bay Colony, the Dutch in New Netherlands, Congress and various Presidents in the United States until the time of President Lincoln. He named the fourth Thursday of November 1864, and since that time each President of the United States has followed his example.

In Canada, Thanksgiving Day is celebrated as a matter of Statute and is observed with religious services, and as an occasion for family reunions. At one time there was some opposition to the celebration of the holiday on the ground that it was a mere relic of Puritan bigotry, but that has long since died out.

This year, and particularly at this time there is much to be thankful for — crops, which while not abundant, are by contrast to those of preceding years exceedingly so, and a world war miraculously avoided at the last minute. — The actual holiday will be taken advantage of to a great extent by hunters waging warfare on game birds.

NOTE AND COMMENT

The shooting season is six days old today and we have not heard yet of a single fatal accident in the Province caused through carelessness or recklessness with fire-arms. However, there is plenty of time yet and it may be too optimistic.

The Big Four (Bassano Type) are reported to be considering engaging legal counsel in a contemplated action for infringement of the name against their European competitors. Certainly something ought to be done about it.

The \$50,000,000 immediate loan which Britain is offering to Czechoslovakia may or may not be accepted. Even troubling the amount will never restore complete confidence and faith in the Czech mind. There are some who think that money can buy peace. Any way it is only a loan and when Hitler is through with Czechoslovakia economically, she probably won't be able to repay, and thus may Britain be repaid her just deserts.

It is probably not well known to drivers of automobiles that

"O WAD SOME POWER THE GIFTIE GIE US
TO SEE OURSELVES AS ITERS SEE US." — Burns.

FROM OUR EXCHANGE COLUMNS

AS OTHERS VIEW IT.

THE "CASE FOR ALBERTA" is a dresy looking document. It has a smart, modernistic cover in Marina blue. It contains about 200,000 words; weighs 21 pounds.

Originally prepared for the Royal Commission, it is now being sold to the "SOVERIGN PEOPLE" for \$2.25 per copy — postpaid. (There was a special bargain rate of \$1.25 until September 15th.)

The other day 200 copies arrived at Ottawa for free distribution among the leaders and executive of the SOVERIGN PEOPLE. Ottawa was impressed and somewhat taken aback by this sudden outburst of Abernethian generosity.

But, like Social Credit, there was a catch. A few days later the railways presented Ottawa with an unpaid freight bill of \$17.—Financial Post.

DROUTH RESISTANT GRASSES

IN SOME PORTIONS of Alberta which have been deserted by the original homesteaders efforts are being made to re-grass the land which was broken up. The first idea was to re-estate the original prairie grass, but latterly crested wheat grass has been planted and has been found to be superior to any other variety.

Crested wheat grass is a primitive Russian variety imported into North America a number of years ago. It is a real drowth resistant grass, and produces prolifically under adverse conditions. Then it has the further asset of being nutritious, and livestock fed upon it are kept in excellent condition.

There is a story to the effect that the hardy horses ridden by the soldiers of the ancient tribes of Russia, headed by such famous warriors as Ottila and Tamerlane, were fed on crested wheat grass. Whether or not this story is apocryphal we are not prepared to say. But, in any event, history relates that the horses ridden by the ancient huns were exceptionally hardy.

Crested wheat grass is literally gaining ground all through the drier regions of Western Canada. Upon its attributes the federal government is depending to a great extent in its prairie farm rehabilitation program.—Hanna Herald.

ARGEST SHIP LAUNCHED

LAST TUESDAY, SEPTEMBER 27th, saw the launching of the sister ship to the "Queen Mary" — the "Queen Elizabeth", at Glasgow, Scotland.

Her majesty, Queen Elizabeth, performed the ceremony at John Brown and Company's yard. A description of the ceremony was broadcast to the world.

The giant liner, about 85,000 tons, was launched at an angle, and it is estimated she will travel only 200 feet in the water before coming to rest. The launching presented a difficult problem, for the width of the river was less than the length of the ship, which is 1,030 feet from stem to stern. Preliminary experiments had been conducted through the use of a 200 inch model in the moulers' tanks.

The "Queen Elizabeth" embraces the latest things in modern ship building, and she is fifteen feet longer than the "Queen Mary" and one foot longer than the "Normandie".

Differences in design and improvements on the "Queen Mary" will probably produce a much speedier Atlantic Service. The "Queen Elizabeth" has special under-water stream lining, and will have only two funnels compared with the "Queen Mary's" three and this will lower wind resistance besides providing additional deck space.—Nanton News

LONDON BANKERS TAKING OVER

LONDON BANKERS are not going to be caught napping in event of a possible air attack. In the financial section of the city, every bank building is being or has been provided with two or three basements. At least two exits have been provided and the roofs have been made especially strong to withstand great pressure.

As a further measure the banks, it is stated, have asked merchantile firms to decentralize their accounts among country branches. Strong rooms and safety deposit boxes are being constructed in other areas so that it would be impossible to damage all in one attack. Auxiliary telephone lines are also being laid and precautions are being taken against flooding of shelters below street levels by bursting water mains.—Financial Post.

THE "U" AND "T" IN BUSINESS

WHEN WE SEPARATE the word "business" into its component letters, BUSINESS, we find that "U" and "T" are in it. In fact, if "U" and "T" were not in 'business' it would not be business. Therefore, if business is to remain 'business', we must keep "U" and "T" in it.

Furthermore, we discover that "U" comes before "T" in business and that "T" is silent — it is to be seen, not heard. Also, the "U" in business has the sound of T which indicates it is an amalgamation of the interest of "U" and "T" and that when they are properly amalgamated, business becomes harmonious and altogether profitable.—Blainmore Enterprise.

Come, let U and I get together and make more business.—Bassano Recorder.

before entering upon a main highway from a side road, every driver is compelled to come to a full stop and must not enter upon the main highway until he can do so with safety. The near tragedy which recently occurred East of here proves the wisdom of such an enactment, and ought to safeguard travellers on the main highway and tourists in particular.

SMALL ADVERTISEMENTS HAVE THEIR PLACE AND BRING MORE BUSINESS

Some businessmen whose establishments are not planned are known to harbor the belief that because the possibilities they envision for their business will not warrant the use of large advertising space in the newspaper, advertising will not pay for their case.

No belief was ever more erroneous. Small advertisements consistently placed in this newspaper week after week will bring new customers and build prestige for any business, whatever its present size.

Small advertisements are read as well as large ones, and the pulling power of an advertisement is gauged more by how it is written and what it advertises than by what amount of space it occupies. Some of the largest businesses in the world today, whose success is directly attributable to their persistence in newspaper advertising, started with the limited space it was possible to buy in the newspapers. Some started, in fact, with classified advertisements.

Many an individual has long surprised at the results obtained from a small want ad, offering some discarded article for sale. Nothing appeals to a people like the opportunity to acquire a bargain, and second hand goods for which the owner has no further use often is exactly what some other person is looking for.

UNIT COUNCIL ASK FOR SUPPORT OF ONE CANDIDATE IN ALBERTA'S CONSTITUENCY

Calgary, Oct. 5th.—Appeal for the nomination in open convention of one candidate acceptable to the rank and file of all political parties opposed to Social Credit in the Alberta constituency was made Wednesday by J. I. McFarland, chairman of the Provisional Unit Council of Alberta. Mr. McFarland's suggestion was addressed to the leaders of the provincial political parties concerned in the by-election, and these were asked to lend their personal support to each party.

"The situation in Alberta has been carefully studied by our Council, and we are convinced the nomination of more than one candidate to contest the by-election against the Social Credit nominee is not in the best interests of the province," Mr. McFarland stated in announcing his action.

"I have asked the political leaders to recommend to the friends and supporters of their respective parties in Alberta, the holding of an open convention, to secure a candidate who can command the enthusiastic and wholehearted support of people of all parties," the chairman of the Unit Movement stated.

"There is doubt as to whether a nomination on any party basis can attract sufficient support to ensure a victory at the polls," Mr. McFarland stated. "This peculiar situation, in my opinion, calls for a candidate chosen by the Albertans voters, irrespective of party, and responsible only to the people in the constituency" he emphasized.

AT 2:00 O'CLOCK P.M.

TO NOMINATE A CANDIDATE FOR THE NEXT FEDERAL ELECTION.

Hon. C. B. Howe, M.P., Minister of Transport, and other speakers will address the Convention.

ALL WELCOME
GOD SAVE THE KING.

Why Germany Turns

Her Eyes Eastward

Czechoslovakia, Soviet Ukraine, Rumania, Yugoslavia All Catch Germanic Attention.

(From the High River Times.)

From an article by Emil Lengyel in the New York Times.

"What is the reason that pulled the Reich attention eastward before the great war and is again turning German eyes in the same direction?"

"Nations have been steadily with Germany to many ways, but has lashed treasurers on her eastern neighbors. Along the Danube and in the Ukraine are raw materials and food in abundance.

Germany still imports 35 per cent. of the raw material and 20 per cent. of the food she consumes, in spite of

extraordinary efforts to free herself from dependence on foreign supplies. Last year she paid about 5,000,000,000 marks for foreign raw material and more than 3,000,000,000 marks for imported food, according to ministry of finance figures.

The Reich has fewest raw materials any amongst major countries. She exports only coal, nitrate and polish and her soil is inferior.

So Reich leaders seeking economic domination, fasten on Czechoslovakia, Hungary is falling into the orbit of German trade, and Rumania and Yugoslavia have had big trade (Germany). But it is the Soviet Ukraine of which Hitler said: in his autobiography "If we had the riches of the Ukraine."

Czechoslovakia

Czechoslovakia, on the first stage of the route, is, after France, the most self-contained country of Europe. Nature has favored her. She has 200 square miles, which can support a population of 15,000,000 more than adequately. Within her frontiers are to be found all the important minerals except platinum.

The alluvial soil of western Czechoslovakia sloping plateau is among the richest in that part of the world. It produces wheat, rye, and barley

Arrowwood

Mr. W. G. Parich had the misfortune to lose his house and contents in a fire started on Friday morning. The fire started upstairs and he came out of it in the second year.

The first practice of the season for the Arrowwood Rugby boys was demonstrated in Bassano, on Sunday, when they came out victorious over the Bassano boys.

A combined Thanksgiving service will be held at the Church of the Brethren on Sunday, Special music by the two choirs. Everybody welcome.

The circus put on by Hoffman's, was well patronized, but on account of the wet weather and bad roads, the dance floor was not crowded. Real good music was supplied.

The next show - "A New Buck Jones" - Saturday, Oct. 8th, at 7:30 and 9:30 p.m.

Don't Forget! - The Two for One Sale is now on at Jockey Drug Store, Arrowwood, - the latest Thursday, Friday and Saturday, October 6th, 7th and 8th.

Get that "new item" down and phone it to the Recorder, Phone No. 25

ed for its hope. The mountainous can grow potatoes and raise cattle. Czechoslovakia has increased her industrial production. Besides brewing her famous Pilsen beer she occupies second place in Europe in the manufacture of beet sugar. Her Skoda factory is the second largest ammunition plant in Europe. The Skoda factory is the largest of its kind. Glass and textile industries are vast.

Hungary - Yugoslavia

On her territory of some 35,000 square miles Hungary raises some of the best wheat of the Danube Valley. A majority of her population of 3,000,000 is engaged in agriculture. Nearly all her exports, netting about \$100,000,000 last year, are products of the soil. Until the war, the capital, Budapest, was the second largest milling centre of the world, next to Minneapolis.

Yugoslavia, farther along the Danube, has almost 100,000 miles and population of 14,000,000. It is potentially rich but lacks capital to develop rich iron and copper resources, as well as agriculture.

Bulgaria on the east has 29,000 square miles and population of 6,000,000. It is a peasant land, and last year Germany took 56 per cent of her exports.

Oil of Rumania

Rumania of vital interest in Germany's ambition. As an oil producer, it is outstripped only by the U.S.A., Russia and Venezuela. Her annual crude production is 62,700,000 barrels. There are 123,350 square miles and 20,000,000 people. After the great war she acquired some of the richest agricultural districts of south east Europe, including Transylvania with its deposits of coal, copper and gold.

Hitler's eyes also rest on the Ukrainian Soviet Socialist Republic, it stretches from Poland to the northern shore of the Caucasus - 143,000 miles (almost as great as Germany) but with a population of only 32,000,000. The Dnieper basin is the Pittsburgh of the Soviet. Its coal output is 67,000,000 tons. Its hydro electric plants are the largest in Europe. Its wheat competes with Canada's wheat.

Romania's Position

One of Germany's policies has been economic penetration and in the last two years great strides have been made. The Balkans are dominated as a market for German goods. Germany bought raw material and foods on the understanding that the money would be spent in Germany. Much of this went to supply Italian countries with arms.

Only recently have western democracies awakened to possibility of German economic penetration.

Hussar Notes

Emerson Brown and Glen Treacy left on Tuesday for the University of Alberta, Edmonton. This is E. Brown's second year.

Miss Lois Nelson spent the weekend with her parents. A large crowd attended the Hoffman Circus and dance on Friday, last. Mr. and Mrs. T. Lawson were Bassano visitors last week.

Mr. and Mrs. J. C. Lawson were in Drumheller the last of the week. Mr. Lawson had his hand severely burned while thrashing and went over to have it treated.

We are sorry to announce that Mr. Tom Kelly is ill with Typhoid Fever in the Drumheller hospital.

The Old Ladies of GCMV will hold their dance here on October 21st. The Ladies' Aid will serve the supper.

Rosemary

Mr. and Mrs. W. J. Park of Hinton, Saskatchewan, were in Rosemary Wednesday visiting old friends.

Mr. and Mrs. F. Beckholt were Calgary visitors Thursday. Mr. and Mrs. Nephi Hornberger and Mr. Sam Hornberger of Rosemary on Sunday.

Mr. and Mrs. F. Adams and Betty motored to Edmonton Monday. Betty will attend University there this year.

Miss Ruth Hough returned last week from Banff where she has been working all summer.

Mr. and Mrs. J. L. Young made a trip to Calgary Monday.

Miss Kay Hall is working in the pea factory in Brooks.

Miss Hazel McNamee of Jenner is visiting Mrs. Ruth Hough.

Mr. LaMar Palmer and Mr. Roy Stillie left for Melwood on Friday.

JAMES JOHNSTON

"THE STORE OF QUALITY"

In the first rugby game of the fall season, played on the local gridiron, the local boys went down to defeat 22-5 at the hands of an Arrowwood aggregation. The game was played under ideal weather conditions and on a well prepared gridiron.

The Arrowwood boys proved their superiority in style of play, due probably to the fact that they have had an organized team for four or five years, and have learned a few of the necessary offensive and defensive plays. This is the second season of play for the locals.

Credit must be given to the Westons for their strong line, who held the local boys at bay on many occasions. Quarter-back "Chase" Norton quick on calling play, and driving his boys ahead, appears to be in for another successful season in this position.

Two of the Arrowwood touchdowns were scored on bad fumbles by the local team. Only one convert of the four touchdowns was successful.

Bassano's lone touch, came in the 1st quarter when a blocked kick was retrieved by Bassano near the oppo-

sition goal line. Following two successful line plunges, Art Arlison scored the goal line to net the 5 points.

A shortage of players for Bassano made it necessary for such veterans as "Scotty" McLane to appear in the lineup. Scotty, from his back-field position and previous knowledge of the game, acted as quarter-back, and succeeded in detecting nearly all the Arrowwood plays. However, years off the grid led Mr. McLane to find that "he ain't what he used to be", and his legs could not move quite fast enough to stop the plays. Nevertheless, he quite capable showed that he still had some of the old fight in him, and not till the final whistle blew did he let up in coaching and directing his teammates in their play. Bert Currie also found the going rather tough, but managed to survive the position, and smile afterward and say "It all comes under the heading of Sport."

Mrs. A. G. Scott returned on Saturday evening, after spending a few days visiting with friends in Nanton, Alta.

Mr. and Mrs. C. McKinnon returned home on Saturday evening after spending a few days visiting with friends in Calgary.

Sgt. and Mrs. C. H. Clarke, accompanied by their daughter, Phyllis, of Lethbridge, returned on Wednesday of last week from a three weeks holiday spent in California and points on the Pacific Coast, returning by way of Vancouver.

The Ladies' Altar Society plan to hold their Xmas Sale on Saturday, December 3rd. A huge Xmas Hamper containing all kinds of Xmas goods and valued at between \$10 and \$15 will be raffled during the day. There will also be a fish pond for the kiddies.

R. C. Services in St. Columbus Church on Sunday, October 23rd, at 9 a.m. Rev. Fr. Morrow, officiating. The Ladies' Altar Society will meet Thursday, Oct. 27th, in the home of Mrs. G. LePage. Members please attend as there is special business to be dealt with.

The Women's Institute are in receipt of a letter of thanks from Mr. Albert Karpinski, who was a patient in the hospital for quite a while, for the kindnesses shown him while here. Amongst the outside sportsmen who were in Bassano this week to enjoy the opening of hunting season were Mr. Geo. Harris, Mr. Wm. Smith, Instructor of the Calgary Aero-Club, and Mr. and Mrs. Ted Holmes. The party arrived on Sunday in the new Heascheart aeroplane, owned by the Midland Airways Ltd. of Calgary, of which company, Mr. Holmes is manager and pilot. While here they were the guests of Mr. and Mrs. H. W. Harper. They returned to Calgary on Tuesday morning.

Mr. Lloyd Beach of Calgary was renewing acquaintances in Bassano the first of the week. Miss Margaret Douglas of the local hospital staff returned from her holidays on Saturday. The Ladies' Aid wish to draw attention to the change of date of the Chicken Supper — from October 21st to October 28th.

Mrs. W. McLeod of Chicago is visiting with her sister, Mrs. H. Holmes.

MONDAY TO THURSDAY RAINS BEING 121 INCHES MOISTURE

A heavy rainfall, starting early on Monday morning and falling nearly steady until early Thursday morning brought 121 1/2 inches of moisture to the Bassano district. This reading was made in the rain gauge located at the R.I.D. office in Bassano.

While harvesting operations in the district were practically completed, there were still several farms working in the fields, all outfits now being shut down for a few days.

This rainfall is similar to a four day fall last year, which commenced on Oct. 1st, according to information received at this office.
